

CEEC 2021-10 Trip Report

CGEF unable to attend in person due to Canadian government travel restrictions due to Covid-19.

Athens, Greece

The CEEC meeting was held in Athens on 8th October. Hosted by Hellenic Petroleum, the meeting was attended by 107 people. Although originally planned to be a hybrid meeting, the organizers were unable to obtain the necessary permissions to allow for an online meeting or even recording. Only 25 reporting member companies attended with the rest made up of CEEC board, governments, speakers and contractors. Although every precaution was taken 4 people tested positive for Covid upon their return.

The reporting companies that attended were: Aspect/HHE, CEP, Expert Petroleum, Gazelle Energy, Georgia Oil & Gas, Hellenic, Lotus Poland, MND, MOL, Odin, OMV, Ossian, PetroSantander, Sand Hill, Tenaz, UAB Minijos Nafta, UK Oil & Gas, Valeura & ZNS. New members 45-8 Energy, EDG, Energean, H2Oil, TBNG and Viva Exploration.

The meeting commenced with the following presentations:

Energy Policy in the Era of Green Transition by Alexandra Sdoukou - Secretary General for Energy & Mineral Resources, Ministry of Environment and Energy of Greece

How to Drive Innovation in E&P by Anastasios Vlassopoulos - CEO Hellenic Petroleum Upstream

Hydrocarbon Exploration in Greece: Past Experience and Future Opportunities by Aristofanis Stefatos - CEO Hellenic Hydrocarbon Resources Management

Why the Hydrocarbons Exploration is Attractive in Greece? The Potential Behind and the Energy Transition Bridge of Gas by Spyros Bellas - Principal Researcher Institute of Petroleum Research (IPR)

The Hydrogen Developments in Greece by Constantinos Papalucas - Energy Policy Expert, Coordinator of Greek National Hydrogen Committee

Reducing the Cost and Risk of Imaging the Subsurface by Carey Mogdan - CEO Inova

Low-Cost Geothermal Exploration Methodologies, New Methods and Future Developments by Roberto Gambini - Co-Founder RE&E, Co-CEO Geological Engineering Network SRL

Risk Mitigation in Geothermal Projects - Sustainable Closed Loop Heating System WeHEAT by Krisztina TÓTH – Project Manager, MS Energy Solutions
