RE: ALGERIA BID ROUNDS 2026

We are excited to announce that the [National Agency for the Valorisation of Hydrocarbon Resources \(ALNAFT\)](#) officially launched the “Algeria Bid Round 2026”.

This is the second bid round organized under the new **Hydrocarbons Law No. 19-13** of 11 December 2019, which introduced a more competitive and flexible framework designed to attract investors through tax incentives and a clearer regulatory framework. Algeria aims to increase its annual gas production to approximately 200 billion cubic meters by 2030.

The seven offered perimeters present varied profiles, ranging from areas comprising existing discoveries and fields to perimeters with significant prospective potential. These are : El Borma II (Ouargla), El M’Zaid Nord (Ouargla), Illizi Centre I, Est Bordj Omar Driss I (Illizi), El Hadjira III (Touggourt), Touggourt Sud et El Benoud Est (El Bayadh). Six of the seven perimeters are offered under PSCs, while Est Bordj Omar Driss I is offered under a Participation Contract. All details regarding the perimeters and the bid’s framework are available on the presentations (ppt), which you can download from [ALGERIA BID ROUND 2026 - ALNAFT](#) .
